

Its Easy to Get Started

- Download and complete the order form and fax it to us
- We handle everything from there: preauthorization, scheduling, testing, upload to CortiCloud – ready to read and report
- We have Easy Access for Patients with Parking out front

CortiCare Our Mission:

To bring cost-effective EEG services to every hospital, practice and clinic.

We Pledge:

To Provide reliable, affordable and accessible real-time EEG services to patients and healthcare facilities

To Improve the quality of life and outcomes of patients by providing real-time neurological information through EEG diagnostic services

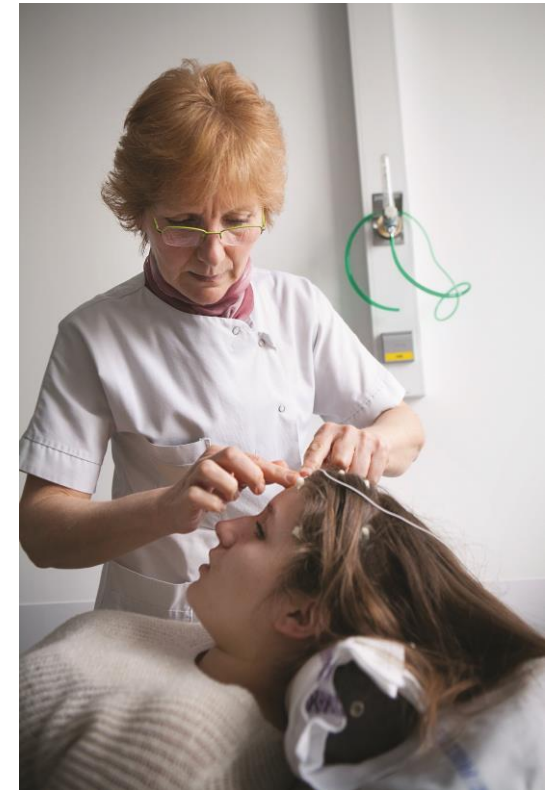

To Serve as the industry leader in neuro-telemetry by setting the standard for processes, personnel and innovation.

CortiCare EEG Testing Center

Outpatient diagnostic EEGs in a safe, clean environment

 **CortiCare**
The New Wave of EEG Services

Does your patient need an EEG?

If you have patients who should be evaluated with an EEG and you lack the equipment or qualified staff to provide the study, CortiCare's EEG Testing Center is available to you.

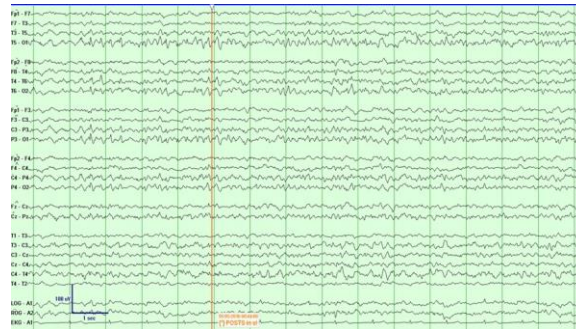

We are a registered Independent Diagnostic Testing Facility staffed with Registered EEG Technologists, providing quality EEG recordings that you can read or have one of our neurophysiologists or epileptologists review the EEG and provide you with a full report.

Routine and Extended Diagnostic EEGs

Routine EEGs include photic and hyperventilation responses. Extended EEG studies from 1 hour to 4 hours also available, as well as sleep deprived and wake/sleep studies.

"We follow ASET, ACNS and CDC guidelines to provide quality studies in a safe, clean environment."

- Cory Tyler, R. EEG T.

We handle the complete process

Send us the order and we will handle insurance preauthorization, scheduling, study recording, preparation for review, and reporting and billing.

Our Physician Portal on the CortiCare Cloud provides secure access to the EEG.

Ordering is Easy

Complete and fax our printed order form or complete and submit the online order form at www.corticare.com/corticare-eeeg-testing-centers and we will do the rest. We will confirm with your office when the study has been scheduled and let you know when it is completed and ready for review.

Ambulatory Video-EEG Studies

Consider our in-home ambulatory video-EEG services for 24-96 hour recordings.

- Quality recordings
- Remotely monitored throughout the study
