

PHYSICIAN READING & INTERPRETATION

Timely EEG Interpretations. Support for Your Physicians.

Board-certified EEG specialists supporting
your hospital’s physicians and care decisions.

STAT • ROUTINE • LONG-TERM STUDIES

"Our 50-state network of neurologists and epileptologists can provide 24/7/365 on-demand coverage for your hospital, providing better access to patient care while supporting your local and hospital-employed physicians."

David Roe, CEO

coverage

SPECIALIZED EXPERTISE. PRACTICAL SUPPORT.

Expert EEG Reading

Physician interpretation for
STAT, routine, and long-term
EEG studies.

Specialist Expertise

Board-certified, fellowship-trained
physicians with adult, pediatric, and
neonatal expertise.

Clear Escalation

Defined pathways for
specialist input when
concerning findings arise.

THE CORTICARE DIFFERENCE

CHALLENGES HOSPITALS FACE

- Coverage gaps at night, on weekends, and during surges.
- Local neurologists balancing EEG reads with competing responsibilities.
- EEG reports need to reach the care team where they work.
- Complex seizure questions call for additional specialist input.

WITH CORTICARE

- On-demand reading support to reinforce your physician coverage.
- 2-4 partner epileptologists to extend your team’s capacity.
- Physicians document interpretations directly in your hospital’s EHR.
- Seizure consultation to support your physicians’ care decisions.

HOW IT WORKS

- 01 Assess your needs**
Identify coverage gaps and the support your hospital requires.
- 02 Align your workflows**
Define physician roles, EHR access, & escalation processes.
- 03 Extend your coverage**
Put EEG reading and seizure consultation support in place.

Strengthen Your EEG Coverage
